Disclaimer

This presentation includes forward-looking statements. All statements contained in this presentation other than statements of historical facts, including statements regarding expectations about future financial performance or results of Cardlytics, Inc. (“Cardlytics,” “we,” “us,” or “our”), such as including becoming cash flow positive, earnings guidance for the third quarter of 2023, the short- and long-term success of our product initiatives, our ability to achieve liquidity, long-term growth and profitability, the anticipated impact of our strategic initiatives to create shareholder value and growth in billings, MAUs and ARPU, are forward looking statements. The words “anticipate,” “believe,” “continue,” “estimate,” “expect,” “intend,” “may,” “will” and similar expressions are intended to identify forward-looking statements. The future events and trends discussed in this presentation may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. Forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond our control. Our actual results could differ materially from those stated or implied in forward-looking statements due to a number of factors, including but not limited to: risks related to unfavorable conditions in the global economy and the industries that we serve; our quarterly operating results have fluctuated and may continue to vary from period to period; our ability to sustain our revenue growth and billings; risks related to the integration of Dosh, Bridg and Entertainment with our company; potential payments under the Merger Agreement with Bridg; risks related to our substantial dependence on our Cardlytics platform; risks related to our substantial dependence on JPMorgan Chase Bank, National Association (“Chase”), Bank of America, National Association (“Bank of America”), Wells Fargo Bank, National Association (“Wells Fargo”) and a limited number of other financial institution (“FI”) partners; risks related to our ability to maintain relationships with Chase, Wells Fargo and Bank of America; the amount and timing of budgets by marketers, which are affected by budget cycles, economic conditions and other factors; our ability to generate sufficient revenue to offset contractual commitments to FIs; our ability to attract new partners, including FI partners, and maintain relationships with current partners; our ability to maintain relationships with marketers; our ability to adapt to changing market conditions, including our ability to adapt to changes in consumer habits, negotiate fee arrangements with new and existing partners and retailers, and develop and launch new services and features; and other risks detailed in the “Risk Factors” section of our Form 10-Q filed with the Securities and Exchange Commission on August 1, 2023. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, achievements or events and circumstances reflected in the forward-looking statements will occur. We are under no duty to update any of these forward-looking statements after the date of this presentation to conform these statements to actual results or revised expectations, except as required by law.

In addition to U.S. GAAP financial information, this presentation includes billings, adjusted contribution, adjusted partner share and other third-party costs, adjusted EBITDA, adjusted EBITDA margin, non-GAAP net loss and non-GAAP net loss per share, each of which is a non-GAAP financial measure. These non-GAAP financial measures are in addition to, and not a substitute for or superior to, measures of financial performance prepared in accordance with U.S. GAAP. Reconciliations of billings, adjusted contribution, adjusted EBITDA, adjusted EBITDA margin, non-GAAP net loss and non-GAAP net loss per share to the most directly comparable GAAP measures are included in the appendix to this presentation. Please see appendix for definitions.

Cardlytics platform engagement metrics⁽¹⁾

There may be variation in future quarters due to factors such as global economic events, bank launches, new advertisers with significant spend, and growth in nascent or new verticals.

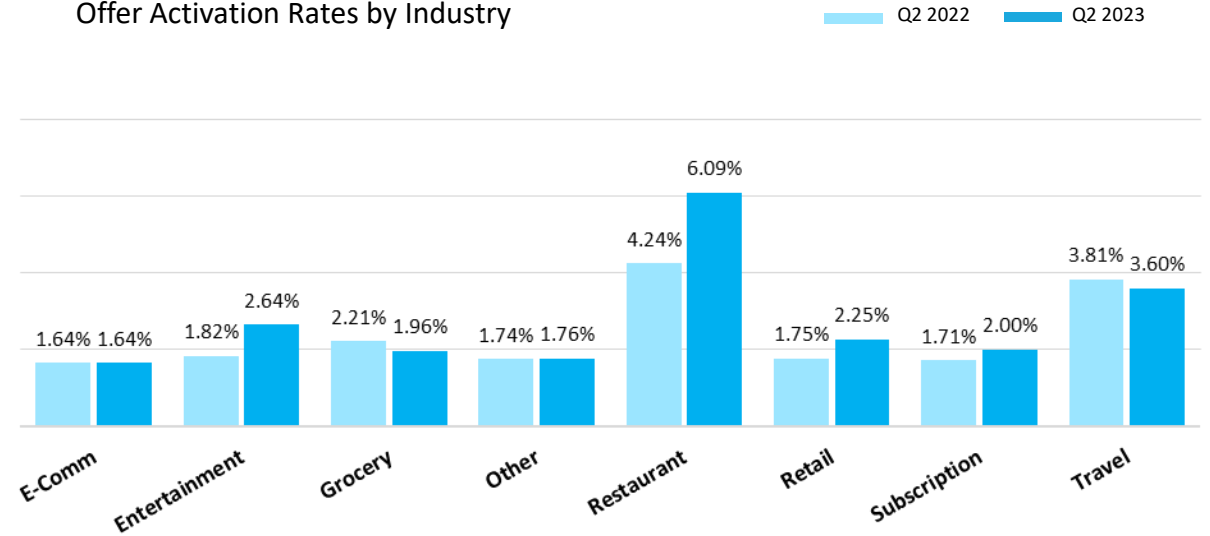

Monthly log-in days⁽²⁾ show that MAUs logged in 10 days per month in Q2 2023 and Q2 2022.

Offer activation rates⁽²⁾ show higher rates for small-ticket, volume-heavy offers versus large-ticket and subscription offers.

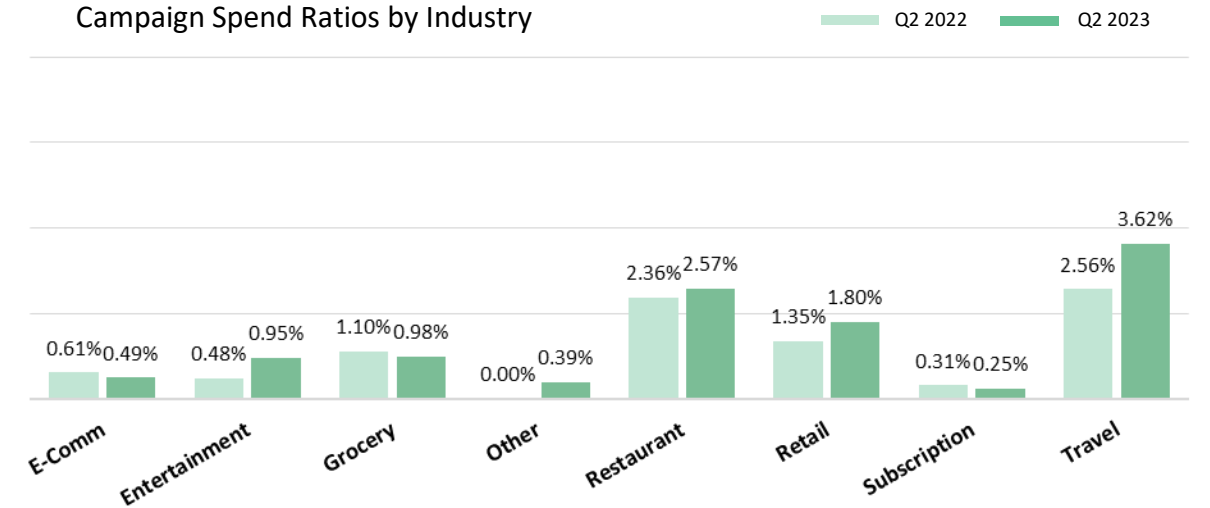

Campaign spend ratios⁽²⁾ show Cardlytics currently targets a small proportion of total MAU spend.

- + As budgets increase and more advertisers come onto the platform, more spend from MAUs can be targeted with offers.
- + There remains considerable room to target larger audiences in light of existing MAU engagement levels.

Definitions

Adjusted contribution: We define adjusted contribution measures of the degree by which revenue generated from our marketers exceeds the cost to obtain the purchase data and the digital advertising space from our partners. Adjusted contribution demonstrates how incremental marketing on our platform generates incremental amounts to support our sales and marketing, research and development, delivery costs, general and administration and other investments. Adjusted contribution is calculated by taking our total revenue less our Partner Share and other third-party costs exclusive of deferred implementation costs, which is a non-cash cost. Adjusted contribution does not take into account all costs associated with generating revenue from advertising campaigns, including sales and marketing expenses, research and development expenses, delivery costs, general and administrative expenses and other expenses, which we do not take into consideration when making decisions on how to manage our advertising campaigns.

Adjusted EBITDA: We define adjusted EBITDA as our Net (loss) income before income taxes; interest expense, net; depreciation and amortization expense; stock-based compensation expense; foreign currency gain (loss); deferred implementation costs; restructuring and reduction of force; acquisition and integration cost (benefit); Impairment of goodwill and intangible assets; and gain (loss) in fair value of contingent considerations.

Cardlytics ARPU: We define ARPU as the total Cardlytics platform revenue generated in the applicable period calculated in accordance with GAAP, divided by the average number of MAUs in the applicable period.

Billings: Billings represents the gross amount billed to customers and marketers for advertising campaigns in order to generate revenue. Cardlytics platform billings is recognized gross of both Consumer Incentives and Partner Share. Cardlytics platform GAAP revenue is recognized net of Consumer Incentives and gross of Partner Share. Bridg platform billings is the same as Bridg platform GAAP revenue.

Campaign spend ratio: We define campaign spend ratio as the amount of spend from MAUs that is associated with the campaigns in which they were targeted with offers divided by the total amount of spend from MAUs in the industries in which MAUs were targeted with offers during the applicable period.

Cardlytics MAUs: We define MAUs as targetable customers or accounts that have logged in and visited online or mobile applications containing offers, opened an email containing an offer, or redeemed an offer from the Cardlytics platform during a monthly period. We then calculate a monthly average of these MAUs for the periods presented.

Monthly log-in days: We define monthly log-in days as the number of days in which MAUs logged in and visited the online or mobile banking applications of, or opened an email containing our offers from, our partners during a monthly period. We then calculate an average of the monthly log-in days for the periods presented.

Non-GAAP net loss: We define non-GAAP net loss as our net loss before stock-based compensation expense; foreign currency loss (gain); acquisition and integration (benefit) cost; amortization of acquired intangibles; and Loss (gain) in fair value of contingent considerations. Notably, any impacts related to minimum Partner Share commitments in connection with agreements with certain Partners are not added back to net loss in order to calculate adjusted EBITDA.

Non-GAAP net loss per share: We define non-GAAP net loss per share as non-GAAP net loss divided by GAAP weighted-average common shares outstanding, diluted.

Offer activation rate: We define offer activation rate as the total number of offers activated by MAUs divided by the total number of offers served to MAUs in the applicable period.
